Bangladesh & Nepal

About Stellinox Global

Trusted Stainless Steel Solutions for Demanding Industries

Stellinox Global Pvt. Ltd. is a leading supplier and exporter of stainless steel pipes, fittings, flanges, sheets, coils, bars, and industrial piping solutions. We serve industries including Oil & Gas, Chemical, Dairy, Food Processing, and Engineering

Vision

To be a globally trusted partner for stainless steel and industrial piping solutions by delivering consistent quality, reliability, and customer-focused service.

Mission

To provide high-quality stainless steel products that meet international standards while ensuring timely delivery, technical excellence, and long-term value for our customers.

Core Values

- ✔ Quality Without Compromise
- ✔ Integrity in Every Relationship
- ✔ Customer-First Approach
- ✔ Innovation & Continuous Improvement
- ✔ Commitment to Timely Delivery

Partner with Stellinox Global for dependable stainless steel solutions built to perform.

Why Choose Stellinox Global

Reliable Quality. Trusted Performance. Global Reach.

At Stellinox Global, we combine quality, technical expertise, and dependable service to support your industrial requirements. Every order is handled with precision to ensure consistent performance and complete customer satisfaction.

Quality Assured Products – Manufactured to meet stringent industry quality standards.

MTC & PMI Support – Complete material traceability with inspection documentation.

Competitive Pricing – Cost-effective solutions without compromising on quality.

Fast Delivery – Efficient order processing and on-time dispatch.

Export Documentation Support – Hassle-free documentation for international shipments.

Global Shipping – Reliable worldwide logistics for timely deliveries.

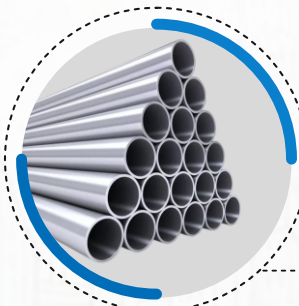

Technical Assistance – Expert support to help you select the right products for your application.

Choose Stellinox Global for quality products, dependable service, and seamless project execution.

Our Product Range

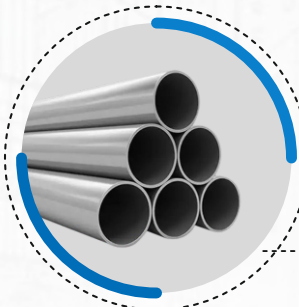

Comprehensive Stainless Steel Solutions for Every Industrial Requirement

Stellinox Global offers a complete range of high-quality stainless steel products designed to meet the demands of diverse industrial applications. Our product portfolio combines precision manufacturing, reliable performance, and consistent quality to support projects of every scale.

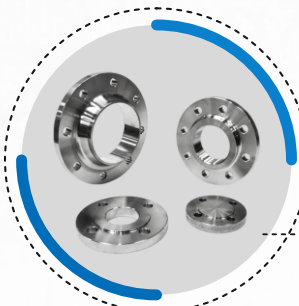

Stainless Steel Pipes & Tubes

Engineered for strength, corrosion resistance, and long-lasting performance across critical industrial applications.

Pipe Fittings

Precision-crafted fittings designed to ensure secure, leak-proof, and durable piping connections.

Flanges

Available in a wide range of configurations to provide reliable and efficient pipeline connections.

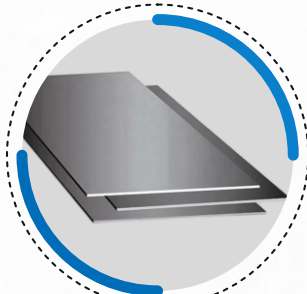

Instrumentation Tube Fittings

Manufactured for high-pressure and precision instrumentation systems where accuracy and reliability are essential.

Dairy Fittings

Hygienically designed fittings suitable for dairy, food processing, pharmaceutical, and sanitary applications.

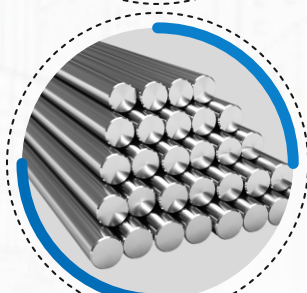

Sheets & Plates

Premium stainless steel sheets and plates offering excellent strength, surface finish, and corrosion resistance.

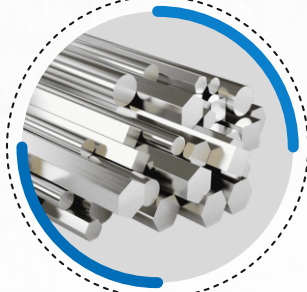

Coils

High-quality stainless steel coils suitable for fabrication, manufacturing, and industrial processing.

Round Bars

Precision-manufactured round bars for machining, engineering, and structural applications.

Bright Bars

Superior surface-finished bright bars with excellent dimensional accuracy and machinability.

Structural Products

Reliable stainless steel structural products designed for fabrication, construction, and industrial infrastructure projects.

Explore our complete product range and find the right stainless steel solution for your next project.

Material Grades

A Wide Selection of Stainless Steel & Special Alloys

Stellinox Global offers an extensive range of material grades to meet the performance, corrosion resistance, and application requirements of diverse industries. Our products are available in internationally recognized grades to support critical engineering and industrial projects.

Stainless Steel	Special Alloys
304	Inconel 600
304L	Inconel 625
316	Hastelloy C276
316L	Monel 400
321	Duplex 2205
310	Super Duplex 2507
17-4PH	Nickel Alloys

Need a specific material grade? Contact our team for the right solution tailored to your application.

Industries We Serve

Engineered Solutions for Diverse Industrial Applications

Stellinox Global supplies high-quality stainless steel products to industries where performance, reliability, and precision are essential. Our solutions are trusted across a wide range of industrial sectors for critical piping and engineering applications.

Oil & Gas Industry

Reliable solutions for upstream, midstream, and downstream operations.

Petrochemical

Durable products designed for demanding processing environments.

Chemical Plants

Corrosion-resistant materials for safe and efficient operations.

Power Plants

Components engineered for high-performance utility applications.

Dairy Industry

Hygienic stainless steel solutions for sanitary processing systems.

Food Processing

Products designed to meet stringent cleanliness and quality requirements.

Pharmaceutical

Precision-engineered solutions for hygienic manufacturing environments.

EPC Contractors

Dependable supply support for engineering, procurement, and construction projects.

Water Treatment

Corrosion-resistant products for water and wastewater infrastructure.

Marine Industry

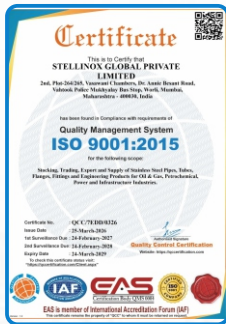

Stainless steel solutions built to withstand harsh marine conditions.

Serving industries worldwide with dependable stainless steel solutions for every critical application

Certifications & Registrations

Compliance That Builds Confidence

At Stellinox Global, we are committed to maintaining the highest standards of business compliance and quality management. Our certifications and registrations reflect our dedication to delivering reliable products and professional service to customers across domestic and international markets.

GST REGISTRATION

Registered and compliant with Indian taxation regulations.

MSME REGISTRATION

Recognized as a registered Micro, Small & Medium Enterprise.

IMPORT EXPORT CERTIFICATIONS

Supporting smooth international trade and global business operations.

Your Trusted Business Partner

Every certification reinforces our commitment to quality, transparency, and dependable business practices.

Global Export Network

Delivering Stainless Steel Solutions Across International Markets

Stellinox Global serves customers across multiple international markets with reliable stainless steel products, efficient logistics, and dependable export support. Our commitment to quality, timely delivery, and seamless documentation has made us trusted partner for industrial buyers worldwide.

Our Export Markets

**UAE | Oman | Saudi Arabia | Qatar | Kuwait | Bahrain | Kenya
Ghana | Nigeria | Australia | New Zealand | Bangladesh | Nepal**

Global Reach. Local Commitment.

From the Middle East and Africa to Asia-Pacific, we support procurement teams, contractors, and industrial projects with consistent product quality and responsive export services.

Partner with Stellinox Global for reliable stainless steel exports backed by quality, compliance, and worldwide delivery.

Infrastructure & Supply Network

Built to Deliver. Equipped to Perform.

Stellinox Global is supported by a strong supply network and reliable logistics infrastructure, enabling us to fulfill project requirements efficiently across domestic and international markets. From sourcing to shipment, every stage is managed with a focus on quality, speed, and reliability.

Our Infrastructure Capabilities

Approved Manufacturing Partners

Collaborating with trusted manufacturing facilities to ensure consistent quality and dependable supply.

Warehousing Support

Well-organized storage facilities for efficient inventory management and faster order fulfillment.

PAN India Delivery

Reliable distribution network ensuring timely deliveries across India.

Export Packing

Secure, industry-standard packing designed to protect products during international transportation.

Container Loading

Professional loading practices to ensure safe handling and efficient overseas shipments.

Reliable Supply. On-Time Delivery.

Our integrated supply chain and logistics capabilities help customers minimize lead times and maintain uninterrupted project execution.

Our Commitment

Delivering Quality, Reliability & Long-Term Business Relationships

At Stellinox Global, our commitment extends beyond supplying stainless steel products. We focus on building lasting partnerships by delivering consistent quality, dependable service, and solutions that support the long-term success of our customers.

What You Can Expect from Us

Customer Satisfaction – Every order is handled with a customer-first approach, ensuring responsive service and dependable support.

Quality Products – Products supplied with a strong focus on quality, consistency, and industry standards.

Timely Delivery – Efficient order management and reliable logistics to keep your projects on schedule.

Technical Support – Expert assistance to help you select the right products for your application and project requirements.

Your Success Is Our Priority

We believe lasting business relationships are built on trust, transparency, and consistently delivering value with every order.
